

FITTER-EU

CONFERENCE

FROM INSIGHT TO IMPACT

Innovating for an inclusive twin transition in Europe

26 NOV²⁰²⁶

SEVILLE, SPAIN

09:00 - 17:00 CET

Joint Research Centre (JRC)

ABOUT THE CONFERENCE

Join policymakers, researchers, industry representatives, civil society organisations and other key stakeholders to explore how Europe can accelerate a fair, inclusive and sustainable twin transition.

The FITTER-EU Final Conference will showcase the project's key scientific findings, policy recommendations and innovative digital tools developed throughout the project. It will provide a unique opportunity to exchange experiences, discuss future challenges and build collaborations that support evidence-based policymaking for Europe's digital and green transformation.

CONSORTIUM

European
Commission

How FITTER-EU Has Engaged Europe's Key Stakeholders

Discover how each stakeholder group helped shape FITTER-EU and explore the opportunities to continue building a more inclusive and resilient Europe.

Trade Unions & Civil Society Organisations

How they shaped FITTER-EU

Helped identify inequalities, represented vulnerable communities and strengthened social dialogue around the twin transition.

Potential gains from participating

Access evidence, policy insights and practical tools to promote fair digital and green transitions for workers and communities.

Public Authorities & Policymakers

How they shaped FITTER-EU

Supported evidence-based policymaking, participated in stakeholder engagement activities and assessed innovative digital solutions for inclusive transition strategies.

Potential gains from participating

Discover the FITTER digital ecosystem and explore tools that support more informed, inclusive and socially just policymaking.

Research Organisations & Academia

How they shaped FITTER-EU

Developed innovative methodologies, analysed inequalities and supported future scenario modelling and impact assessment.

Potential gains from participating

Build collaborations within a European research ecosystem advancing inclusion, climate justice and the twin transition.

Domain Experts

How they shaped FITTER-EU

Provided expertise through workshops, interviews and consultations to refine scenarios and identify emerging socio-economic risks.

Potential gains from participating

Continue influencing future policy recommendations and innovative solutions supporting Europe's green and digital transformation.

Disadvantaged & Vulnerable Groups

How they shaped FITTER-EU

Shared lived experiences through co-creation activities, ensuring that real societal challenges remained at the centre of the project.

Potential gains from participating

Strengthen their voice in shaping policies designed to reduce inequalities and prevent exclusion during the twin transition.

Private Sector & Business Angels

How they shaped FITTER-EU

Shared perspectives on innovation, investment and sustainable business development through consultations and collaborative activities.

Potential gains from participating

Gain access to foresight scenarios, policy intelligence and opportunities for developing more resilient and socially responsible business models.

NETWORKING & COLLABORATION

Meet researchers, policymakers, civil society organisations, public authorities, industry representatives and European experts working together to shape the future of the inclusive twin transition.

BE PART OF THE TRANSITION

Transform research into action.

REGISTRATION
